WORKING

AS A

TEAM

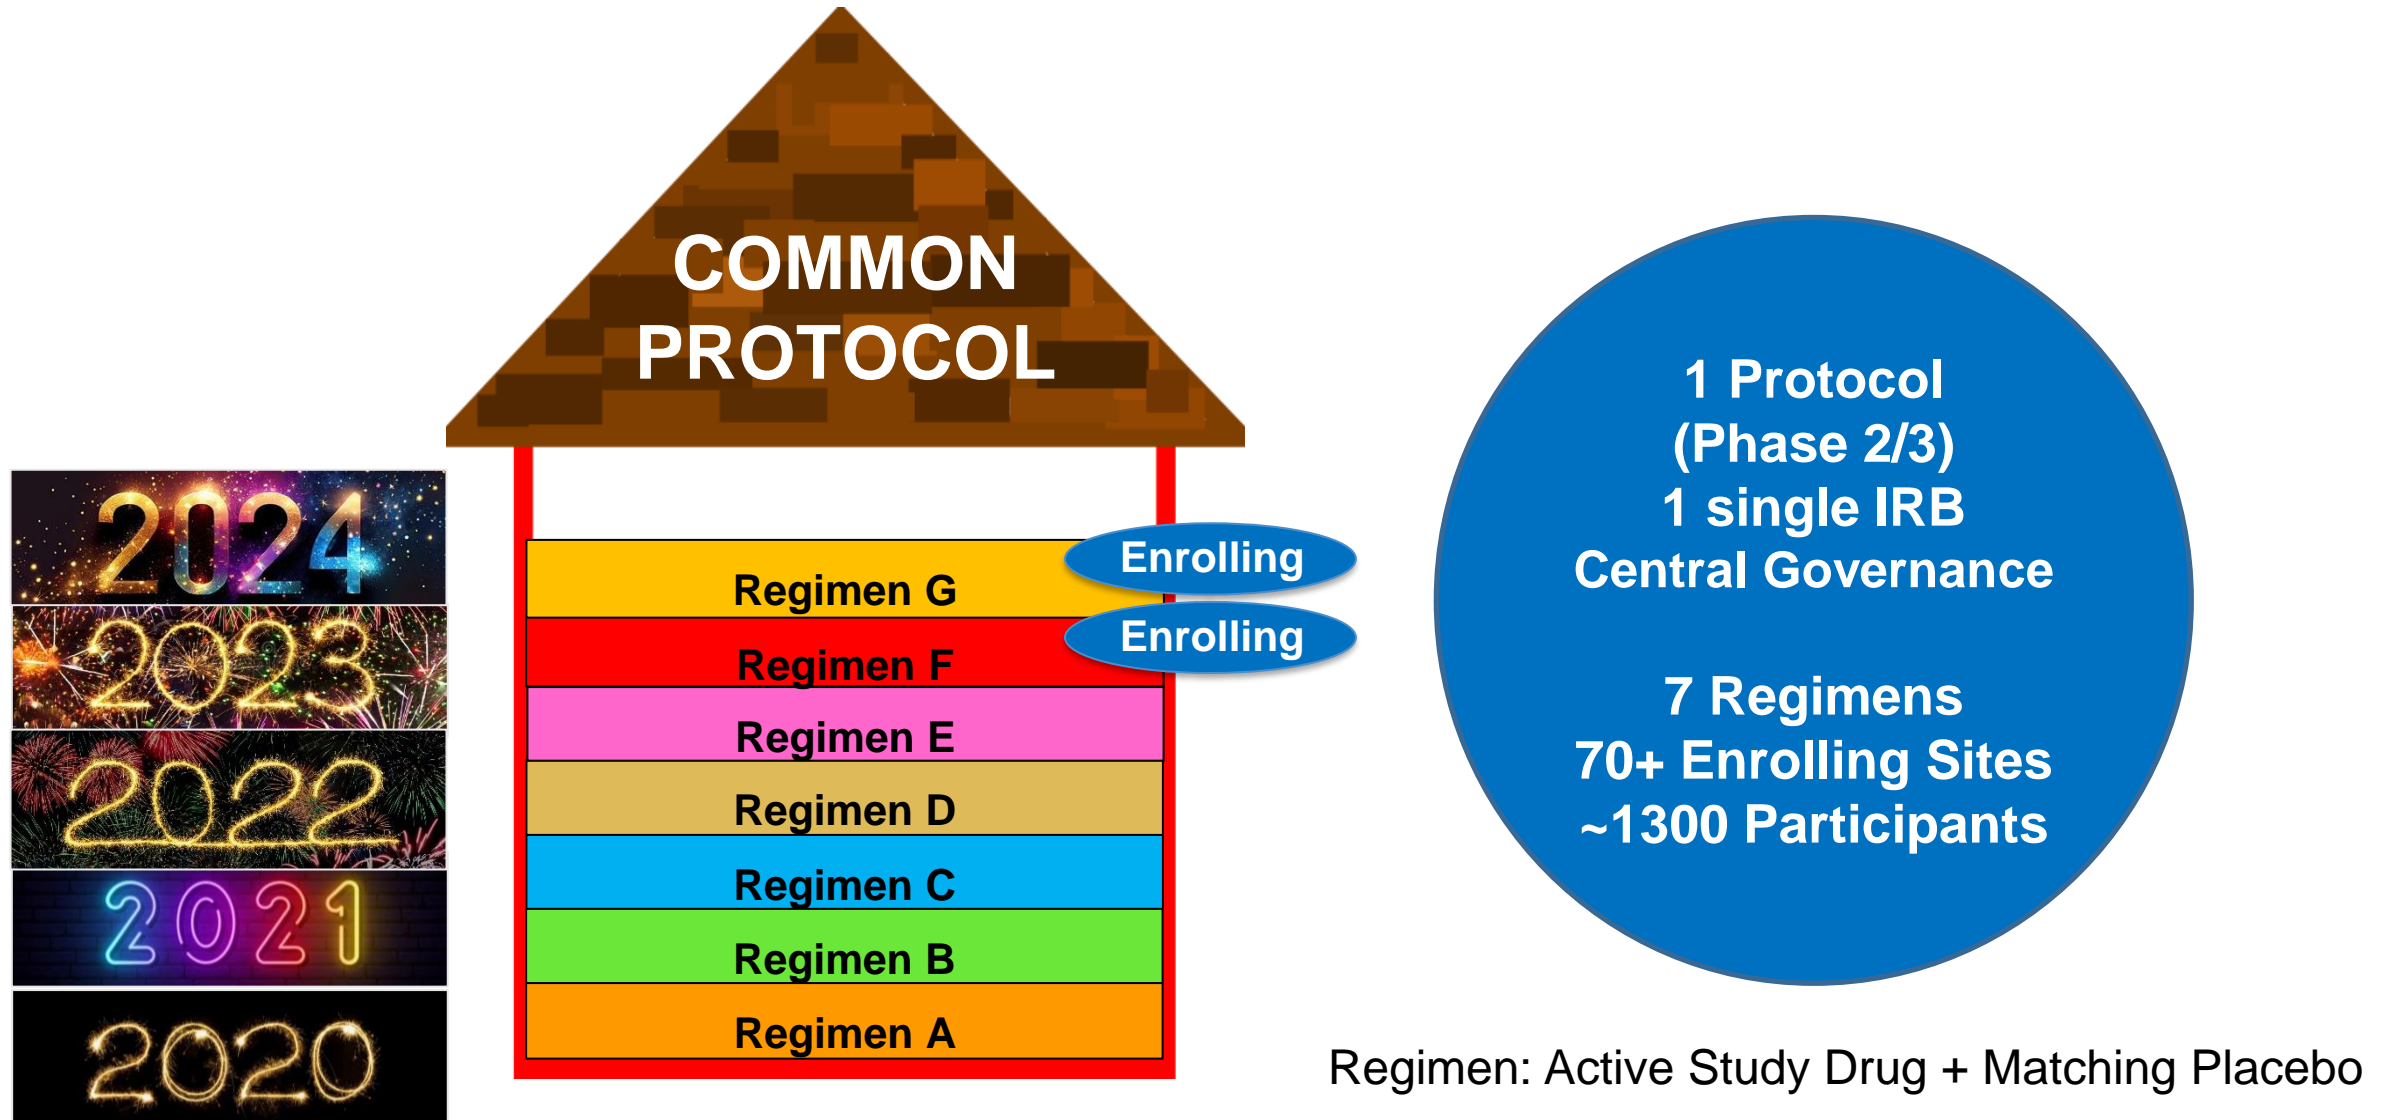

This trial is **dedicated to all people living with ALS**, their families, and friends. Your **partnership** in research is what keeps us filled with passion, dedication, and the commitment to develop new treatments for ALS

This breakthrough trial would not be possible without your participation.

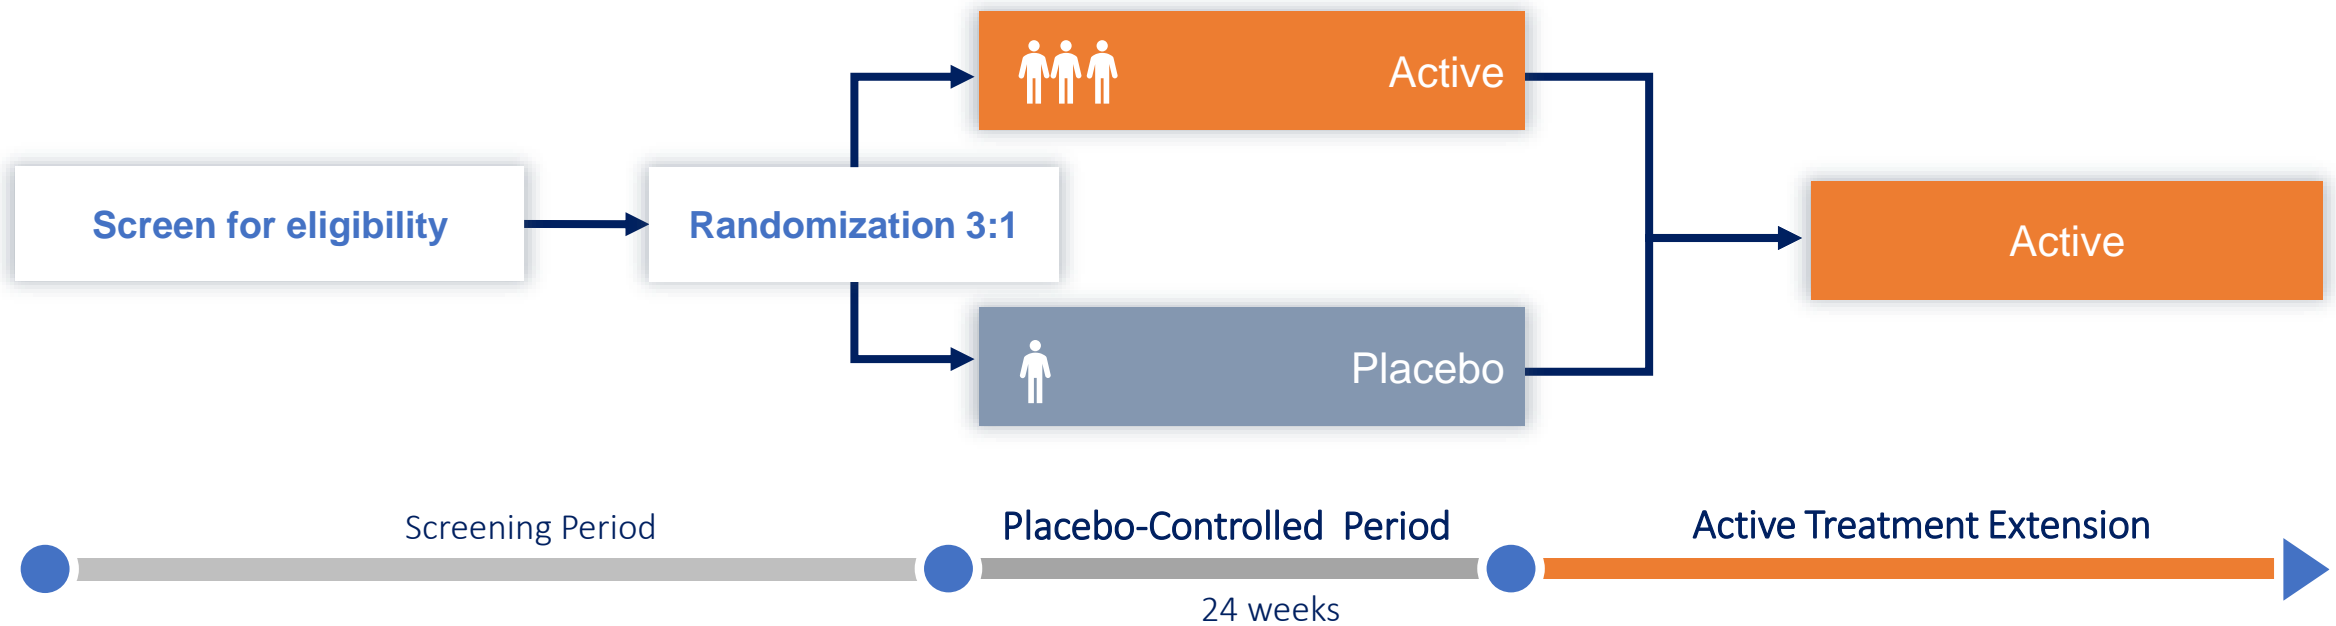

Every research participant, whether on the active drug or placebo, plays a critical role in making the hope of finding a cure for ALS a reality

Thank You

Common protocol and shared infrastructure allow for operational and scientific efficiencies

The objective of each regimen is to provide a go / no go decision to inform the clinical development program of the regimen study drug

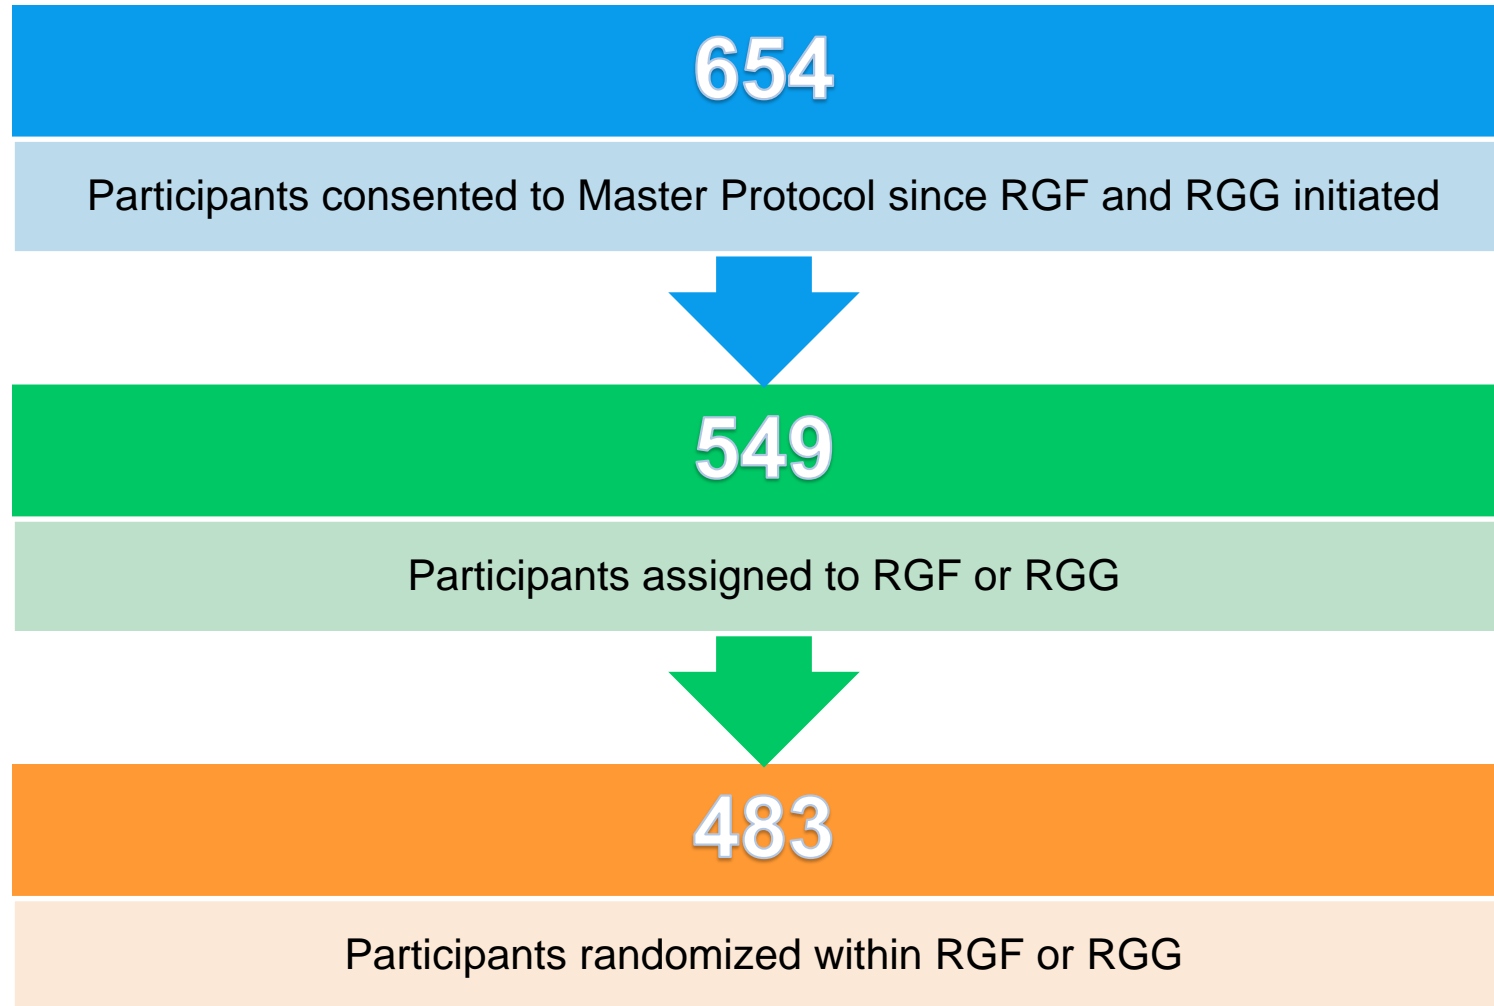

Primary Endpoint (Placebo-Controlled Period)

Change from baseline through week 24 in disease severity as measured by the ALSFRS-R total score and survival

Safety, Secondary, and Exploratory Endpoints

(respiratory function, muscle strength, survival, biomarkers + regimen-specific endpoints)

Enrollment Update: Regimen F and Regimen G

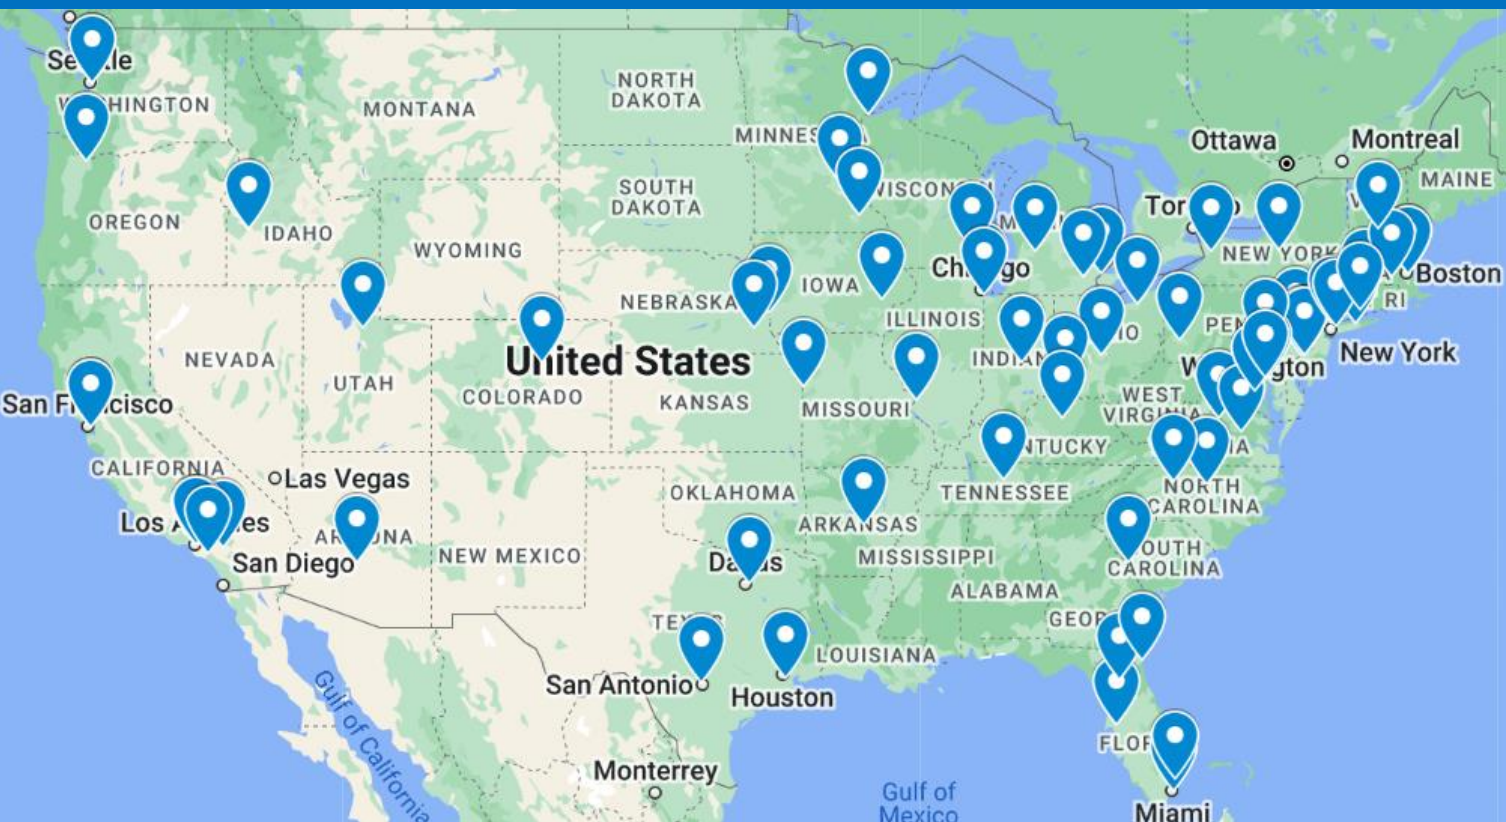

Thank You

for your partnership in ALS research

(as of 3/7/24)
